

Shut Down SOA! Stop Killer Coke!

"The U.S. government has trained over 10,000 of Colombia's military troops at the School of the Americas in Ft. Benning, Georgia. And SOA training manuals which the Pentagon was forced to turn over in 1996 show that the U.S. encouraged these troops to engage in torture and murder of those who, inter alia, do 'union organizing and recruiting,' pass out 'propaganda in favor of the interests of the workers,' and sympathize with demonstrators or strikes."

"As a consequence of the official vilification of trade unionists by the Colombian and U.S. governments as well as corporations in Colombia, Colombia has led the world in the number of murders of trade unionists."

From SINALTRAINAL, et al. v. The Coca-Cola Co.
